Section 1265.4. Sign/symbol.

- (a) Each new residential structure in each edition 24 rehabilitation of an existing residential structure that utilizes trust type construction, pre-engineered wood construction and/or timber construction shall be identified by a sign/symbol in accordance with the provisions of this Part.
- (b) The sign/symbol required by this part shall be fixed to the electric box attached to the exterior of the residential structure; provided, however, that:
 - (1) if fixing the sign/symbol to the electric box with obscure any meter on the electric box, or if the utility providing electric service to the residential structure does not allow the sign/symbol to be affixed to the electric box, the sign/symbol shall be affixed to the exterior wall of the residential structure at a point immediately adjacent the electric box; and
 - (2) if no electric box is attached to the exterior of the residential structure or if, in the opinion of the authority having jurisdiction, the electric box attached to the exterior of the building is not located in a place like the leasing by firefighters and other first responders bonding to a fire or other emergency at the residential structure, the sign/symbol required by the part shall be affixed to the exterior of the residential structure and location approved by the authority having jurisdiction as a location likely to be seen by firefighters and other first responders responding to a fire or other emergencies at the residential structure.
- (c) The sign/symbol required by this part shall be affixed prior to the issuance of a certificate of occupancy or certificate of compliance. The authority having jurisdiction shall not issue a certificate of occupancy or certificate of compliance until the sign/symbol required by the part shall have been affixed.
- (d) The property owner shall be responsible for maintaining the sign/symbol required by this part shall promptly place any such sign/symbol that is affixed to an electric box when any change or modification is made such electric box. The property owner shall promptly replace the sign/symbol required by this part if such sign/symbol is removed or becomes damaged, dated, worn or otherwise less vacuous firefighters or other first responders responding to a fire or other emergencies at the residential structure. The property owner shall keep the area in the vicinity of the sign/symbol acquired by the hard clear of all plants, vegetation, and other constructions that may hide or obscure such sign/symbol or otherwise cause such sign/symbol to be less conspicuous to firefighters or other first responders is by required for other emergency at the residential structure.
- (e) the sign/symbol indicating the utilization of trust-construction, pre-engineered wood construction and/or timber construction shall comply with the requirements of this subdivision.
 - (1) The sign/symbol shall consist of a circle 6 inches (154.2mm) in diameter, with a stroke of width of 1/2 inch (12.7mm). The background of the sign/symbol shall be reflective white in color. The circle and content shall be reflective red in color, conforming to Pantone matching system (PMS) #187
 - (2) The sign/symbol shall be of sturdy, non-fading, weather resistant material; provided, however, that a sign/symbol of life directly to a door or side light may be a permanent non-fading sticker or decal.
 - (3) The sign/symbol shall contain an alphabetic construction type designation to indicate the construction type of the residential structure, as follows:
 - (i) If the residential structure is subject to the provision of the RCNYS, the construction type designation shall be "V" and
 - (ii) if the residential structure is subject to the provisions of the BCNYS, construction type designation shall be "I", "II", "III", "IV" or "V" to indicate the construction classification of the structure under section 602 of the BCNYS.

(4) The sign/symbol shall contain an alphabetic location designation to indicate the location(s) containing truss type construction, pre-engineered wood construction and/or timber construction structural components, as follows:

- (i) "F" shall mean floor framing, including girders and beams;
- (ii) "R" shall mean roof framing; and
- (iii) "FR" shall mean floor framing and roof framing.

(5) The construction type designation shall be placed at 12 o'clock position of the sign/symbol, over the location designation, which shall be placed at the six o'clock position of the sign/symbol.

Execution Law 5382b, Chapter 353 and Part 1265, Title 19 NYCRR
